Final_EFH Effects Analysis ELDS draft final v27316.docx

Hi Chris,

I hope you are enjoying your summer!

It is that time again, we decided for the administrative record to be consistent with our approach to the consultation approach.

So, I have sent a letter but again, attaching the "effects analysis" for your review. The letter was signed and sent out early last week .. I did send an extra copy in the mail and will send it via email today.

As discussed before, this is the Effects Analysis for the Eastern site, (this is draft), so please let me know if there is anything you want me to add or change to make your response easier!

Thanks! (I am at 617-918-1536) if you would like to discuss...
